

M/R

Matthew Read

OBJECTIVE

I am currently enrolled within the IT Web Programming Course at Nova Scotia Community College and have experience in many programming languages and frameworks that support current IT strategies and methodologies. I am a good communicator who is efficient in developing reports and documents with different types of word processing software. I am interested in a position as a Web Programmer as I feel I fit the qualifications and expectations for such job position.

EDUCATION

Nova Scotia Community College, Sydney, N.S.

- Currently studying the IT Web Development program.
- Set to graduate in 2020
- Enrolled in 2018
- Has experience with programming and web development technologies, as well as familiarity with many of the IT software applications that support them on the client-side and server-side.

Glance Bay High School, Glance Bay, N.S.

- Graduated in 2018
- Enrolled in 2015
- Honor Student
- Received Highest Distinction award in 2015-2016 school year.

COMMUNICATION

I consider myself to be an intelligent, clearly spoken communicator who can convey their thoughts and opinions in a productive and professional matter. I can apply my communication skills well through writing as I excel in developing reports and documents through word processing suites such as Microsoft Word. I work well within groups alongside other individuals and use proper problem-solving methods to ensure that a specific task can be completed within a specified amount of time.
